HYDROMOL®

OINTMENT

FOR ECZEMA, PSORIASIS AND OTHER DRY SKIN CONDITIONS

3 IN 1 ALL-PURPOSE EMOLLIENT, BATH ADDITIVE & SOAP SUBSTITUTE
Contains no fragrances, colourings, additives or preservatives. Suitable for all ages

SLS FREE

Net Wt 500g e

Hydromol Ointment is intended to be liberally used, as required, for the management of eczema, psoriasis and other dry skin conditions.
A 3 in 1 all-purpose emollient, bath additive and soap substitute, it contains no fragrances, colourings, additives or preservatives and is suitable for all ages.

Instructions for use: For external use only. Keep in the original container and replace lid after use. Dispose of responsibly according to official regulations.

All-purpose emollient – Apply to the affected area with a smooth stroking action in the direction of hair growth. Use liberally as often as required. Ensure hands are clean before applying.

Bath additive – Melt Hydromol Ointment in warm water in a suitable container, add mixture to the bath. Care should be taken as Hydromol Ointment will make the surface of the bath slippery.

Soap substitute – Use as required when washing. Always take special care when using emollients after bathing; this may present an increased risk of slipping and falling.

Storage: Store in a cool, dry place, below 25°C. Batch number and expiry date are stated on the label. Hydromol Ointment should not be used after the expiry date; this date refers to the last day of that month.
Keep out of sight and reach of children.

Ingredients:
Cetomacrogol emulsifying wax (contains cetostearyl alcohol and macrogol cetostearyl ether), yellow soft paraffin and liquid paraffin.

Warnings and precautions:
Do not use Hydromol Ointment if you are allergic (hypersensitive) to any of its ingredients.
If your condition worsens or you experience any undesirable effects, stop using Hydromol Ointment and consult your doctor, nurse or pharmacist.

Avoid contact with eyes. If contact occurs rinse with water for several minutes.
